- Java • Data Structures and Algorithms • DBMS • SQL • JDBC • Microservices Architecture
- Spring Boot • Spring Security • H2 DataBase • DTO • Hibernate • Kafka • Eureka

ACADEMIC EXPERIENCE

GFG KARE Student Chapter, Lead

March 2023 - March 2024

- Founded and led the GFG KARE Student Chapter with the goal of bridging the gap between industry and academia by organizing coding events that strengthened technical skills and encouraged active student participation in tech initiatives.
- Spearheaded Algorithmist24 and initiated a group for students focused on Data Structures and Algorithms, fostering collaboration and growth within the tech community.

PROJECTS

E-Commerce Microservices Project: Built a scalable e-commerce application using Spring Boot microservices (Product, Cart, Order, Notification) with API Gateway, Eureka, Config Server, and Kafka for inter-service communication.

Awareness Guardian for Online Education: Created a Chrome extension that monitors user attention during online classes by analyzing webcam feed using Python, OpenCV, and CNN-based eye behavior analysis. The system provides real-time alerts to help students stay focused throughout their learning sessions.

CERTIFICATIONS

- Spring Boot - Udemy • Learn Advanced Java – CodeChef
- Mastering Data Structures and Algorithms – GeeksForGeeks

ACHIEVEMENTS

Founder, GFG KARE Student Chapter : Established and led the chapter to promote coding culture and student learning.

Good Problem-Solving Skills : Consistently practiced problem-solving on platforms like [Geeks for Geeks](#), [LeetCode](#), [Coding Ninjas](#), and [Hackerrank Rank](#) while maintaining impressive streaks and earning top ratings.
